Level in School : P4 / P1. (2014)

This programme teaches my 2 children the essential skills in solving  
maths problems.

The instructors at the centre are nice and friendly.

Teacher Jazinta is one of the instructor who is patient especially  
to my younger daughter who is shy in the class. They like to attend her  
class

Teacher Jazsintha is a very patient, kind & caring  
teacher. She has helped my child understand Math concepts  
better and trained my child to do the model drawings  
properly & clearly. She is very competent at  
teaching Math. Thank you for your hard work,  
Teacher Jazsintha!

Level in School : P3

The task of the excellent teacher is to stimulate  
"apparently ordinary" people to unusual effort. The  
tough problem is not in identifying winners: it is in  
making winners out of ordinary people.

~ K. Patricia Cross

THANK YOU Teachers Jaz & Houssene for  
the unwavering support to my Quinn's Math enrichment.  
Together, she will surely be a winner in life!

My son got great improvement in  
results since he join eimaths.

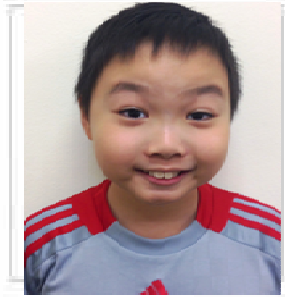

The teaching materials are sufficient for my  
son to score well in his exams.

Is good to have a teacher like Mrs Jazsintha,  
she was a responsible and patient teacher.

Macy had provided fantastic guidance to my son.

She is very patient and made sure my son excel

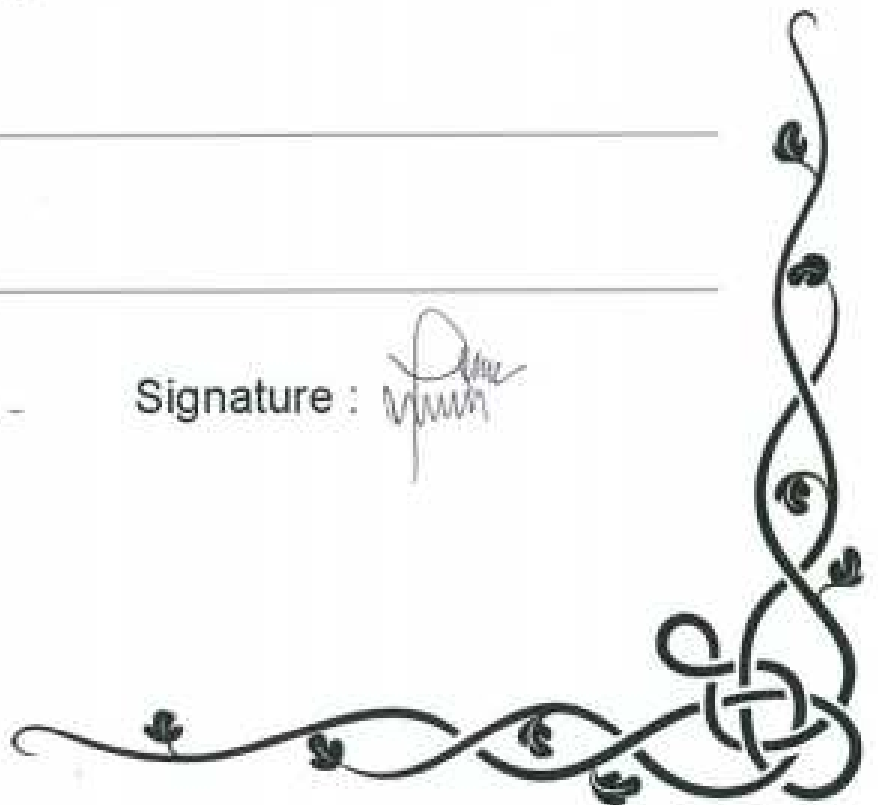

in his math problem sums. The current <sup>curriculum</sup> ~~curriculum~~

helped alot in his problem sums. In his school

exam. Thank you very much.

Dear Management of Mind Over Matter Learning Hub

Math was my elder daughter's weakest subject in P1. Both my wife and myself had tried to teach her on our own but then yielded no improvement at all to her grades. We've tried her in various tuition centers and even at one point engaged an ex-MOE teacher from a reputable school to help her in a one-to-one sessions, but her grades always ranges average at best.

When heuristic math was introduced in P2, that was when our nightmare began as she simply cannot understand and grasped the new heuristic concept and failed her mid-year math test badly even with ongoing tuition lessons. The ex-MOE teacher who's teaching her at that time told me my daughter always lose focus and tended to drift off half-way through her lessons. Indirectly the tuition teacher attributed the poor grades to my daughter's inability rather than due to her teaching methods.

That's when we started looking for another tutor and then we came to know about your tuition center through an internet forum. We decided to give your center a try after reading all the positive comments from parents. We were pleasantly surprised when my daughter told me after the first lesson that she liked the tuition teacher, Ms Macy, which we've never heard such comments from her before on her previous tutors.

Her good results for the final terms of P2 and P3 are the best testaments to your Ei Maths programme. More importantly, we would like to stress that teachers are the main essence of learning. They make you either love or hate the subject and on this, Ms Macy through her attentive, caring and dedicated teaching approach has managed to achieve what other tutors could not in inspiring and guiding my daughter to better grades.

Our youngest daughter is going to P1 next year and just like her elder sister, she's weak in math. We have enrolled her in your tuition center's Ei Maths Programme. With Ms Macy as her tutor, we are confident that very soon, Maths will become her favourite subject.

Sincerely

Name of Student : Alden Chua  
Level in School : P1  
Date Join : 26 Mar 2014

I have decided to enroll Alden in ei maths because he showed little interest and lack of understanding in mathematics so we hope ei math would be able to encourage him to be more enthusiastic about math. We are delighted that over a period of six months he showed signs of improvement whilst enjoying the subject at the same time.

I thank Teacher Macy for her patience and understanding towards Alden's learning, helping my son overcome the difficulties he previously endure whilst learning mathematics.

Eimaths provide a relaxing environment  
for Jeanette to learnt maths at her own  
comfortable pace and the result proved  
to be excellent.

The EI Mathis Program is a very unique program that caters more to the capability of the child. It brings greater confidence to the child as he can cope better with the standard rather than blindly following.

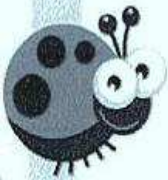

Javis enjoyed the program as it is unlike typical sums in school and hence it brings more interest to him as well. He managed to excel in school.

Ei Mathz has help me a lot in school from Sa1 to

Sa2 as Ei Mathz gave me a headstart in area and

perimeter and helped me understand more in word problems.

I was over the moon when I heard my results! I had

got 71 over 80, converted in to 88 upon 100. I'm

very grateful to Ei Mathz for helping me in Maths.

Wyna was in P1 when she first joined the class. Initially she scored Band 3 in her P1 mid year exam, but with the help of the teachers in E1 Maths at Buangkok Branch, especially Teacher Lynn has helped her to score Band 1 since P2 till P3. My gal is also interested in the materials given from the class. Once again, I would like to say a big THANK YOU to teacher Lynn. Hope she would be able to teach her till Primary 6.

I enjoyed learning in EImaths class on Monday

because I enjoyed playing the tools after my work.

All teachers were kind and gentle to

all the kids.

Thank you for teaching me

maths.
